## NEWS BY TELEGRAPH

The Dead Body of the Missing Army Officer, Col. Potter, Found Cremated.

His Murderers Arrested—Miera, Hung at Bernalillo two Weeks Ago, one the Villains.

A New Fuel, Composed of Petroleum and Steam, Claimed to be a Great Success.

Capt. Lawson, One of the Heroes of Milk River, Dead—Sensational Suicide and other Casualties.

Special to the GAZETTE.

## Col. Potter's Murderers.

Santa Fe, Jan. 31.—At last the mystery attending the fate of Col. Chas. Potter, of the United States Geological Survey, is cleared up by the arrest and confession of the murderers at Albuquerque and vicinity. It appears that Mr. F. S. Vanzandt, who has been working on the case for some time past obtained the first clue about one week ago, from the fact that a watch answering the description of the one worn by Col. Potter, was in the hands of a jeweler at Albuquerque. Identification of the watch by Mr. Vanzandt followed.

Step by step it was traced back to the hands of one Mariano Seyborn. The case was brought to the attention of Sheriff Armijo, of Bernalillo, who with a skill and determination rarely shown, has unravelled one of the most brutal and cold blooded murders ever committed. Obtaining information that one Escalante Perea was implicated in the murder Sheriff Armijo effected his arrest at Isleta, about fourteen miles from Albuquerque, also two others living in the mountains near the scene of the murder and from the confessions of these men the following horrid details are gathered: Col. Potter, on October 15th called at Tejares and inquired the way to the placer mines. Two of the murderers were there and seeing Potter had a fine watch and was evidently a man of means, misdirected him as to the road, directing him through a lonely canon trail off the right road, then hunted up two or three companions, one of whom was Miera, who was hanged at Bernalillo some time ago for horse stealing. These four human tigers by a detour, struck the road that Potter took and ambushed themselves, and laid in wait for their victim, who, soon appeared, and when but a short distance from the concealed party, he dismounted from his horse and while in the act of lighting his pipe, the villain opened fire on him. One shot struck him in the knee; he then dropped on his knees and grasping his revolver returned the fire, his shot taking effect in the arm of Mariano Seyborn; another shot from Col. Potter, killed the horse of one of the murderers; the next fire from his assailants pierced his breast and head and at the same time killing his horse and both fell dead together. After rifling the body of all valuables, they piled brush and wood on it and then set it afire. On visiting the spot yesterday Sheriff Armijo and his party found the skull and a few small bones of the body, with some pieces of clothing and the peculiar buttons on Potter's clothing amongst the ashes. The buttons were at once identified by Mr. Van Zandt.

Jersey City, Jan. 31.—An exhibition of a new fuel, a combination of petroleum and steam, was held in this city to-day. The exhibition was of the most satisfactory nature, and the results promised are of importance not easily exaggerated. Col. Ross, of Pennsylvania Railroad says that the run from New York to Philadelphia can be made four dollars instead of twenty-five dollars as now with coal. The Commercial says to produce combustion nothing more is necessary than by means of an atomizer to unite dry steam and crude petroleum and only a common inch pipe being used for the purpose, one for steam and one for oil, with cocks to regulate the flow. The section is made with six inches of perforated brick, into which the nozzle enters and instantly on a match being applied, the whole interior of the furnace, an ordinary revivifying furnace, becomes intensely heated, so much so that all the exposed surface may be easily fused. It applied to a steam boiler on a locomotive or on ship board it is only necessary to place retorts made of fine clay on the grate bars, thus protecting the boiler plates from injury.

## A New Fuel.

San Francisco, Jan. 31.—A despatch from Tucson says by reliable information as to the number killed by the Indians since the 16th inst. is as follows: On the 19th three herders and two miners were killed at Murchie Gulch; on the 20th two men were killed on the Upper Chiricahua; on the 22nd five Mexicans were killed twenty miles southwest of San Marcial; on the 21st a family consisting of a man, his wife, child and mother-in-law were massacred at Corriso, fifteen miles west of San Marcial; on the 23rd, a

## Senatorial in Pennsylvania.

Harrisburg, Jan. 31.—On the thirteenth ballot Oliver received 42 votes; Wallace, 37; Grow, 32. There being no quorum they adjourned.

## Helping to Make the Cabinet.

Cleveland, Jan. 31.—Thirty Indians went to Mentor to press claims for cabinet positions.

## Senate.

Washington, Jan. 31.—Daves addressed the Senate on the killing of Big Smoke, the Ponea chief by the soldiers in the agents office in the Indian Territory. He intimated that the extraordinary delay of the Interior department in answering the Senate resolution of March 11th, last, was intentional. He detailed the circumstances and scathingly criticized the department's method as un-American and he vindicated and presented a protest from 250 Poncas against the sale of the old reservation.

## House.

Washington, Jan. 31.—A resolution was introduced by Howley for the prevention of adulterations of food and drugs.

Dwight introduced a bill to compensate railroad mail employees for injuries received while on duty on trains.

The session of the House will begin hereafter at 11 a. m.

The Iowa contested case was finished. Sapp and Carpenter will retain their seats.

Cox will press his apportionment bill to-morrow.

## Train Wrecked.

Syracuse, Jan. 31.—The train bound for Des Moines was wrecked this morning and a number of persons were badly hurt.

## Wrecked.

Milwaukee, January 31.—The propeller St. Albans, belonging to the Ludington Line, Northern Line Company, was wrecked sixteen miles out on the lake. The passengers who have been out in the small boats since yesterday are being picked up by tugs. Twenty-six of the crew and passengers have been saved. All the boats but one are in and that one is nearly ashore. The boat and cargo are a total loss.

Early risers discovered four boats far out on the lake in a blinding storm filled with people, including women. A rescuing party, mostly policemen, was formed at 9 o'clock. One boat managed to reach the breakwater near the North-West depot and was drawn ashore.

They gave the information that the leak was discovered when twelve miles out and that in two hours the vessel had to be abandoned by the crew, consisting of twenty sailors and five passengers, of whom four were ladies. The leak was in the bow on the port side and seemed to have been caused by ice. The forward cargo was thrown overboard to lighten her but the water poured in and in half an hour put the fires out and it was concluded to take to the small boats at 120 yesterday afternoon. Three have landed and but one is still out. All will doubtless be saved.

## A New Fuel.

Jersey City, Jan. 31.—An exhibition of a new fuel, a combination of petroleum and steam, was held in this city to-day. The exhibition was of the most satisfactory nature, and the results promised are of importance not easily exaggerated. Col. Ross, of Pennsylvania Railroad says that the run from New York to Philadelphia can be made four dollars instead of twenty-five dollars as now with coal. The Commercial says to produce combustion nothing more is necessary than by means of an atomizer to unite dry steam and crude petroleum and only a common inch pipe being used for the purpose, one for steam and one for oil, with cocks to regulate the flow. The section is made with six inches of perforated brick, into which the nozzle enters and instantly on a match being applied, the whole interior of the furnace, an ordinary revivifying furnace, becomes intensely heated, so much so that all the exposed surface may be easily fused. It applied to a steam boiler on a locomotive or on ship board it is only necessary to place retorts made of fine clay on the grate bars, thus protecting the boiler plates from injury.

## The Number of Victims.

San Francisco, Jan. 31.—A despatch from Tucson says by reliable information as to the number killed by the Indians since the 16th inst. is as follows: On the 19th three herders and two miners were killed at Murchie Gulch; on the 20th two men were killed on the Upper Chiricahua; on the 22nd five Mexicans were killed twenty miles southwest of San Marcial; on the 21st a family consisting of a man, his wife, child and mother-in-law were massacred at Corriso, fifteen miles west of San Marcial; on the 23rd, a

buckboard was taken between Silver City and San Marcial five miles from San Jose, the driver being killed. A Mexican interpreter of Furlows reservation was found dead. There is not less than 200 Indians in bands of from ten to thirty on the war path and there has not been less than forty people murdered by them during the last fifteen days. The military appears to be doing absolutely nothing.

Col. Price an experienced Indian fighter who was in command in the field in the South-east of Arizona and had just organized a company, was relieved on the 24th and Maj. Riddle put in command. Good service was expected from Price as he is well acquainted with that section of New Mexico where the Indians are doing their bloody work.

## Steamboat Accident.

Panama, Jan. 29.—The Star and Herald has a despatch stating that the steamer Pitkin, running from Greytown to Nicaragua, burst her boiler on the 2d inst. while going over the Macqua rapids in the San Jose river. Among the killed are Dr. Arguello, and Mr. Mongals, a merchant of Greytown, and a native, name unknown. Gen. Ulrich was severely scalded and otherwise injured. Several others were scalded more or less. The accident causes great distress along the river and may have had an effect on the shipments from Nicaragua by river.

## A Suicide.

Chicago, Jan. 31.—A sensational suicide occurred in the North Division last night. Louis Gramma, a soap manufacturer, of 405 North Avenue was discovered this morning hanging to a cross beam in a small room in the rear of his factory. There were fourteen small cuts on his left wrist; showing that he had first attempted to cause death by severing an artery. On his shirt were dark stains from some liquid supposed to be poison. Gramma was a German, thirty-five years of age. The cause cannot be surmised.

## King Kalakakua.

San Francisco, Jan. 31.—King Kalakakua states that the object of his trip is for the purpose of visiting the different Asiatic and European nations with a view of finding out the most feasible plan of attracting a desirable class of immigrants to the island in place of the natives who seem determined to become extinct in a comparatively short time. The King does not favor the Chinese and he will leave by the next steamer for Yokohama.

## Captain Lawson's Death.

Cheyenne, Jan. 31.—The Leader's Fort Steel special says that Captain Joseph Lawson of the 3d cavalry died last night with paralysis. Lawson served through the rebellion and on the frontier since, being one of the bravest and best officers in the service. He was the real hero of Milk River when Thornburg, in September, '79, and his company held the Utes in check with great loss. The Wyoming legislature especially thanked him for meritorious services.

## Eight Mongolians "Depart."

San Francisco Jan. 31.—A despatch received from Santa Cruz says that eight Chinamen, who were employed in cutting timber for a mill company on the line of the Southern Pacific Railroad, near Daugherty's mills, fourteen miles from Santa Cruz, were buried alive yesterday by a half mile of an excavation sliding down. There were eighteen men employed, ten of whom escaped.

## Rain in California.

San Francisco, Jan. 31.—At Windor thirteen inches of rain fell in seventy hours, and much damage was sustained by the people in that vicinity. In Placerville in twenty-four hours up to noon to-day seven and three-quarter inches of rain fell. From other places in the northern part of the State come almost incredible accounts of the amount of rain fall during the storm.

## Burned.

Grand Rapids, Mich., Jan. 31.—The large Ledyard block, owned by Shepard & Hazelton, druggists, burned last night. Loss, \$80,000. Insured. Mrs. Rose Lowe, living in the third story suffocated.

## Making Assignments.

Cincinnati, Jan. 31.—Weil, Kahn & Co., cigar manufacturers made an assignment of \$150,000 to \$200,000 to-day. Their assets are estimated at \$160,000.

## EXCHANGE HOTEL

Mrs. S. B. DAVIS, Prop'r.
